

# Bartu Çakır

Frontend Developer

+905303577391 bartucakir21@gmail.com Turkey, Antalya

[Github](#) [Linkedin](#) [Portfolio](#)

## Summary

Experienced in building web applications with React, TypeScript, and Next.js. Focused on performance optimization, Agile workflows, and creating scalable, reusable solutions.

## Education

### Eskişehir Osmangazi University

Mathematics and Computer Science

2020 - 2024

### Anadolu University

Computer Programming

2023 - 2025

## Work Experience

### Robosme - Frontend Developer

Oct, 2024 - Mar, 2025

- Developed and maintained front-end features for the modernization of the Robosme CRM platform, utilizing JavaScript within an MVVM architecture and contributing to its migration to React for improved performance and scalability.
- Took responsibility for managing all frontend tasks and overseeing CI/CD processes for the CRM instance creation processes of the [product website](#).
- Utilized Jira, Azure DevOps, and Git for efficient task management, version control, and seamless collaboration within agile workflows.
- Collaborated closely with product manager, UI/UX designer, and developers to deliver timely customer solutions, enhance user experience, and meet custom development requirements

### Gise.com - Freelance Frontend Developer

Feb, 2024 - Mar, 2024

- Rebuilt the frontend of a B2C website using React and TypeScript, implementing key features like event search, ticket booking, user authentication, payments, and profile management.

### Teknodev - Intern Frontend Developer

May, 2023 - Sept, 2023

- Contributed to a SaaS website creation platform using React, TypeScript, SCSS, and Spica Engine (Supabase alternative).
- Improved team productivity by 15% through Agile Development practices, leading to increased responsibilities.
- Managed version control and collaboration using Git throughout the project lifecycle.

## Skills

HTML, CSS, JavaScript, Knockout.js, TypeScript, React, jQuery, Tailwind CSS, shadcn/ui, Node.js, MongoDB, REST API, Redux, Git, Azure DevOps, JIRA, Trello - Collaboration, Result-oriented, Communication, Time management

## Projects

### AI-powered Mock Interview Platform [Github](#) [Live](#)

Built a Mock Interview platform with Next.js, MongoDB, and Vercel AI SDK, offering dynamic questions and feedback.

### Seat Charts [Github](#) [Live](#) [Npm](#)

Bus and event seat selection components with interactive reservation logic using TypeScript and React, a npm package
